Reduce risk

Experts and best practices from the software vendor

Opportunity

Understand how to leverage the upgrade for business value

Visibility

Understand all aspects of the upgrade plan

Vendor services

Work with the vendor to ensure peace of mind

Organizations run businesses on OpenText. When planning to take advantage of the latest innovations from OpenText, experienced experts are here to ensure a smooth upgrade.

OpenText's Upgrade Assessment fast tracks the upgrade path, bringing clarity to the path forward highlighting opportunities and risks, and how to address both.

Reduce risk - experts and best practices from the software vendor

Organizations can benefit from OpenText's extensive experience upgrading customer environments in both on-premises and public cloud platforms.

The upgrade assessment brings OpenText's expertise and experience together with the customer's own experts to review systems and dependencies with other leading applications such as SAP or Office365. This pooled knowledge positions the development of an optimal upgrade path tailored for individual business, IT, and risk profiles.

Understand how to leverage the upgrade for business value

The team provides briefings about new capabilities – is able to replace customizations in some cases – and how to leverage cloud technology such as containerization, modern storage options, and cloud services.
