Executive summary

Information management is at the heart of modern work. Maintaining pace with constantly evolving demands requires agility, scalability and resilience. OpenText™ Extended ECM provides an agile information management foundation, which deeply integrates content with the business processes that power your organization. With Extended ECM, teams are empowered to create, consume and share information to make insightful decisions, deliver best-in-class service and boost operational efficiency.

Extended ECM X-Plans are purpose-built to address the most common use cases, making content management easy to buy, deploy and operate—and allowing you to focus on what's most important to your organization. The three turnkey X-Plans provide all the benefits of cloud wherever you deploy:

- **Want to achieve compliance and team productivity?** The X1 Plan features ready-to-use business scenarios, Microsoft Teams® integration, automated security governance and content management.

- **Working toward operational excellence across your organization?** The X2 Plan features all the functionality of the X1 Plan, boosted by a deep integration with business applications (SAP S/4HANA®, SAP® SuccessFactors® and Salesforce®).

- **Or perhaps you wish to share information outside enterprise boundaries with partners and customers?** The X3 Plan adds on to the functionality of the X2 Plan, also including OpenText™ Core Capture for intelligent filing of documents, OpenText™ Core Share for secure content sharing (both internally and externally) and OpenText™ Core Signature Service for secure business transactions.

Extended ECM X-Plans are available as customized or standardized private-cloud plans or standardized off-cloud license plans and are scalable to meet your needs now and in the future.
