Protect sensitive data across its lifecycle—
while at rest, in motion, and in use

OpenText™ Data Privacy & Protection Portfolio

Discover, protect, and secure high-value data:

80+
patents in privacy
by default

250+
protection
functions

Leader
in dynamic
data masking

OpenText Data Privacy and Protection Foundation (Voltage) helps customers retain control of their data security across various industries.

Finance

SIX
SIX's regulators require them to apply a strict "need to know" principle. OpenText's technology enabled SIX to **"encrypt data at the source"** to address privacy compliance.

Major Financial Services Corporation
With some of this client's largest databases holding more than **one billion records**, OpenText Data Privacy and Protection Foundation helps navigate a complex and distributed environment to protect sensitive data in test cases.

Healthcare & Insurance

Large Healthcare and Insurance Organization
OpenText Data Privacy and Protection Foundation helps this client protect sensitive data from a breach while leveraging the power of cloud-based analytics across **150+ distributed applications**.

Telecommunications

Swisscom AG
Swisscom rapidly leveraged OpenText's enterprise-ready encryption-as-a-service solution to protect **10 million customer records** at risk of cyberattack.

Retail

Multi-National Pharmacy Retailer
With hundreds of millions of online transactions each year, OpenText Privacy and Protection Foundation's format preserving technology enables this client to run secure data analytics for strategic decision-making.

Multi-National Retail Organization
Voltage SecureDataOpenText Privacy and Protection Foundationsecurity to **7+ million cloud-hosted customer records** for this retail organization so that it is only ever exposed when required.

Software & Technology

Leading Provider of Business Processing Services
Before OpenText, this client's product managers could not access the data. Now they can and are using the data in its protected form to **drive insights** without exposing any sensitive data.

Retain control of your data security with OpenText Privacy and Protection Foundation

As highlighted by our clients, OpenText Privacy and Protection Foundation can help you modernize your data protection and simplify regulatory compliance. Our leading format-preserving enterprise data protection techniques reduce the chance of a breach and enable you to unleash your data's potential wherever it is, on premises or in the cloud.
