opentext™

OpenText Knowledge Discovery Version Comparison Chart

View the features and capabilities waiting for you with an upgrade to the latest version of OpenText™ Knowledge Discovery

OpenText™ Knowledge Discovery						
Product features	Benefits	24.x	23.x	12.x	11.x	10.x
LLM and vector processors	Open platform for enterprise use of Gen AI	⊘				
Discover UI	Investigation and research interface	⊘				
Aviator Search UI	Conversational question answering interface	⊘				
MS 365 Teams and Exchange BOT	Access OpenText Knowledge Discovery from your most used applications	⊘				
Multi modal search	Search seamlessly images and text with a text and or image prompt	⊘				
Search Abstractor API	Generative AI question and answer	⊘				
Conceptual graph API	Merges structured and unstructured analysis	⊘	⊘			
Name and address variant search	Allows fuzzy searching for entities	⊘	⊘			
Open SSL3	Supports FIPS	⊘	⊘			
Speech to text V3	Step change in word accuracy across all supported languages	⊘	⊘			
New connectors	Latest connections to new, cloud-based repositories	⊘	⊘			
Apple M1 support	OEM endpoint devices	⊘	⊘	⊘		
Redaction for audio, videos, and images	Remove unwanted content	⊘	⊘	⊘		
Docker containers	Industry-standard deployment and Docker hub availability	⊘	⊘	⊘		

OpenText™ Knowledge Discovery						
Product features	**Benefits**	**24.x**	**23.x**	**12.x**	**11.x**	**10.x**
Dynamic corpus	Unbounded repository search	✓	✓	✓		
Geospatial search	Search and filter by location	✓	✓	✓		
Apache NiFi	Browse repo, guided setup, document track, and autoscaling	✓	✓	✓		
PII/PHI/PCI eduction packages	Fast, accurate curated grammars for named entity resolution	✓	✓	✓		
Object classifier	User trainable and pretrained for real-time video tracking	✓	✓	✓		
Video event analysis	Tripwires, objects, paths, counting, stationary	✓	✓	✓		
TLS 1.3	SSL security update	✓	✓	✓		
Conversation server	Allow question-answer conversations while maintaining context	✓	✓	✓		
Video matching	Filter video files for copies and part copies	✓	✓	✓		
Person recognition	Clothes, hair, bags, etc.	✓	✓	✓		
Face detection and recognition	1:1 or 1-to-many face-matching from video or images	✓	✓	✓	✓	
GPU support	Support for GPU scaling of media analytics	✓	✓	✓	✓	
Media server support	Audio, video, and image file support	✓	✓	✓	✓	
Media server	Orthogonal and GUI	✓	✓	✓	✓	
News story segmentation	Logically segment broadcast recordings	✓	✓	✓	✓	
Query manipulation server	Modify search results based on implicit or explicit criteria	✓	✓	✓	✓	
Natural language question answering	Questioning and answering from normal language	✓	✓	✓	✓	
Vehicle recognition	License plate, make, model, and color	✓	✓	✓	✓	
Video recording and management and clipping	Ingest, review, and schedule video recording across channels	✓	✓	✓	✓	
Data at rest encryption	Secure all data in indexes	✓	✓	✓	✓	
Sentiment analysis	Understand positive or negative sentiment from content	✓	✓	✓	✓	✓

OpenText™ Knowledge Discovery						
Product features	**Benefits**	**24.x**	**23.x**	**12.x**	**11.x**	**10.x**
OCR	Text extraction from scanned documents	✓	✓	✓	✓	✓
Speaker segmentation and identification	Identify different speakers and match to database	✓	✓	✓	✓	✓
FIND UI	Out-of-the-box search and knowledge discovery UI	✓	✓	✓	✓	✓
Collaboration	Expert discovery and profiling	✓	✓	✓	✓	✓
Conceptual search	Automated retrieval method to search unstructured data for information that is conceptually similar to the search query	✓	✓	✓	✓	✓
Parametric search	Find documents that have a particular value or range of values in a particular field	✓	✓	✓	✓	✓
Advanced keyword search	Access to additional search functionality in OpenText Knowledge Discovery server	✓	✓	✓	✓	✓
Boolean search	Boolean operator combined search	✓	✓	✓	✓	✓
Fuzzy search	Find words that are spelled incorrectly and words that are spelled similarly to the search term	✓	✓	✓	✓	✓
Automatic Query Guidance (AQG)	Broad analysis of a document set to determine important topics and phrases in the dataset	✓	✓	✓	✓	✓
Categorization and clustering	Supervised and unsupervised data mining technique where similar objects are grouped together	✓	✓	✓	✓	✓
Document security	Maintain your enterprise access security	✓	✓	✓	✓	✓
New file formats	New extractable file formats to extract data	✓	✓	✓	✓	✓
