

Titanium X

Exponential outcomes are waiting for you

Looking to drive innovation, enhance security, and streamline operations? It's time to upgrade to **Titanium X**, the ultimate enterprise release crafted for tech-savvy leaders and IT professionals ready to take their business to the next level.

Any of these sound familiar?

Outdated code with huge security risks

Yikes.

Long audits and non-compliance fines

Ouch.

Sluggish software and performance issues

Ugh.

Troubleshooting bugs and defects

Who has time for that?

Clunky integrations, workarounds, and compatibility issues

The worst.

Modernize. Upgrade. Migrate.

If you're running outdated software and systems, you're missing out on:

Smarter decisions with AI

Automate with OpenText™ Aviator and 120+ AI agents and take the grind out of work.

Cloud performance, elevated

Plug in, power up, and innovate faster across platforms—SaaS, hybrid-cloud, and secure integrations.

Next-level security

Outsmart threats—real-time detection, faster response, and seamless global compliance.

50%

faster decision-making

5x

faster content creation

40%

faster cloud migrations

50%
