---

**More than 80,000 students trained.**

---

## Maximize training

Corporations and government agencies use OpenText™ EnCase™ software to search, collect, preserve and analyze digital information for the purposes of computer forensics investigations, information assurance, electronic discovery collection, data loss prevention, compliance with mandated regulations and more. To help organizations maximize their use of EnCase products, OpenText offers the EnCase Annual Training Passport and OnDemand EnCase Annual Training Passport.

## Stay ahead of the curve

As the volume and sophistication of digital investigations continue to increase, investigators can stay ahead of the curve by taking advantage of Training Passports. Organizations choose one discounted, flat rate which qualifies an investigator to take EnCase training courses for one or two years.

## Flexible delivery options: EnCase vClass and EnCase Training OnDemand

In addition to our innovative classrooms, OpenText offers virtual and online training. Eliminate travel costs and experience our live instructor-led classes from your home or office through EnCase vClasses. Receive training from anywhere in the world at your convenience with Training OnDemand.

## Program details

With the original EnCase Annual Training Passport, students can unlock unlimited access to classroom courses at OpenText training facilities, including but not limited to Pasadena, CA (Los Angeles), Dulles, VA (Washington DC) and Reading, UK as well as EnCase vClass courses and EnCase Training OnDemand. Or they can purchase the OnDemand Passport and receive access to all available OnDemand training courses.

Students must meet the course prerequisites and may only be enrolled in two EnCase Training OnDemand classes concurrently. Passports are not valid for private, on-site training courses or for classes taught by Authorized Training Partners.

Annual purchase of passports provides nearly limitless access to training on the use of EnCase products and electronic examination best practices.

Students who wish to purchase either passport within 30 days of taking a classroom, EnCase vClass or Training OnDemand course can apply the course fee toward the cost of the Passport, resulting in a significant cost savings.

## EnCase Annual Passport Fees

Program	Annual Passport	OnDemand Passport
One-Year Annual Training Passport	\$6,495.00	\$3,495.00
Two-Year Annual Training Passport	\$11,995.00	\$5,995.00

## EnCase Annual Training Passport

### Pay one discounted annual rate for unlimited training

Annual Passport holders are entitled to attend unlimited EnCase Training courses. Combine classroom, vClass and OnDemand delivery methods for maximum flexibility.

## OnDemand EnCase Annual Training Passport

Attend all EnCase Training OnDemand offerings for one discounted annual rate.

---

***“Until I attended EnCase training classes, I never realized the full potential of the software.”***

Sergeant Bill Lerch  
Chicago Police Department
