

Training overview

Three industry-recognized certifications:

Certified Forensic Security Responder (CFSR)

The CFSR certificate will equip you with the breadth and depth of knowledge you need to become a highly sought-after cyber security forensics expert.

EnCase Certified Examiner (EnCE)

EnCE certification acknowledges that professionals have mastered computer investigation methodology as well as the use of EnCase software during complex computer examination.

EnCase Certified eDiscovery Practitioner (EnCEP)

The EnCEP program certifies private and public-sector professionals in the use of OpenText™ EnCase™ electronic discovery software as well as their proficiency in eDiscovery planning, project management and best practices, spanning legal hold to load file creation.
