

Get unstuck from legacy integration technologies

90% of IT business leaders say legacy systems hold them back from harnessing the digital technologies they need to grow and become more efficient.¹

30% say these systems are a barrier to successful project implementation and hinder digital transformation.²

3 reasons why businesses get stuck with legacy technologies

Cost

“Organizational buy-in remains a top challenge for those leading digital transformation. The companies we studied report digital transformation is still often perceived as a cost.”

—Vala Afshar, ZDNet³

Time

“Replacement may require several years given the complexity of the system.”

—David Fronckowiak, Pace University⁴

Integration

“The biggest challenge is to integrate new tools into existing legacy technologies rather than having to start over with a completely new platform.”

—Forbes⁵

How the OpenText Embrace & Replace Program can break you free from legacy technologies

Accelerate digital transformation with a low-risk path to the cloud.

OpenText's Embrace & Replace Program allows organizations to:

Extricate integration operations.

Minimize disruption and risk.

Maximize value.

Enable a modern, future-proof, cloud-based solution.

Benefits

- ✓ Migrate to a modern, future-proof cloud platform.
- ✓ Complete transition in reasonable timeframes.
- ✓ Achieve a seamless transition with minimal risk and disruption.
- ✓ Get compelling value and predictable costs.
- ✓ Leverage data experts and best practices.

A two-pronged approach

Embrace

Untangle integration operations from deeply embedded on-premises or in-network integration and middleware environments:

- Leverage OpenText™ Managed Services
- Reduce overhead
- Extend existing investments

Replace

Replace integration operations with our advanced, award-winning OpenText™ Business Network:

- Gradually move to the Business Network Cloud
- Migrate all data operations
