

Modernize payments without disruption

You don't have to rebuild everything from scratch.

Connect systems, streamline SWIFT connectivity, support ISO 20022 transformation, and reduce payment operations complexity with OpenText™ Financial Hub and OpenText™ SWIFT Service Bureau.

Why banks and corporates are making a move now

Current challenges

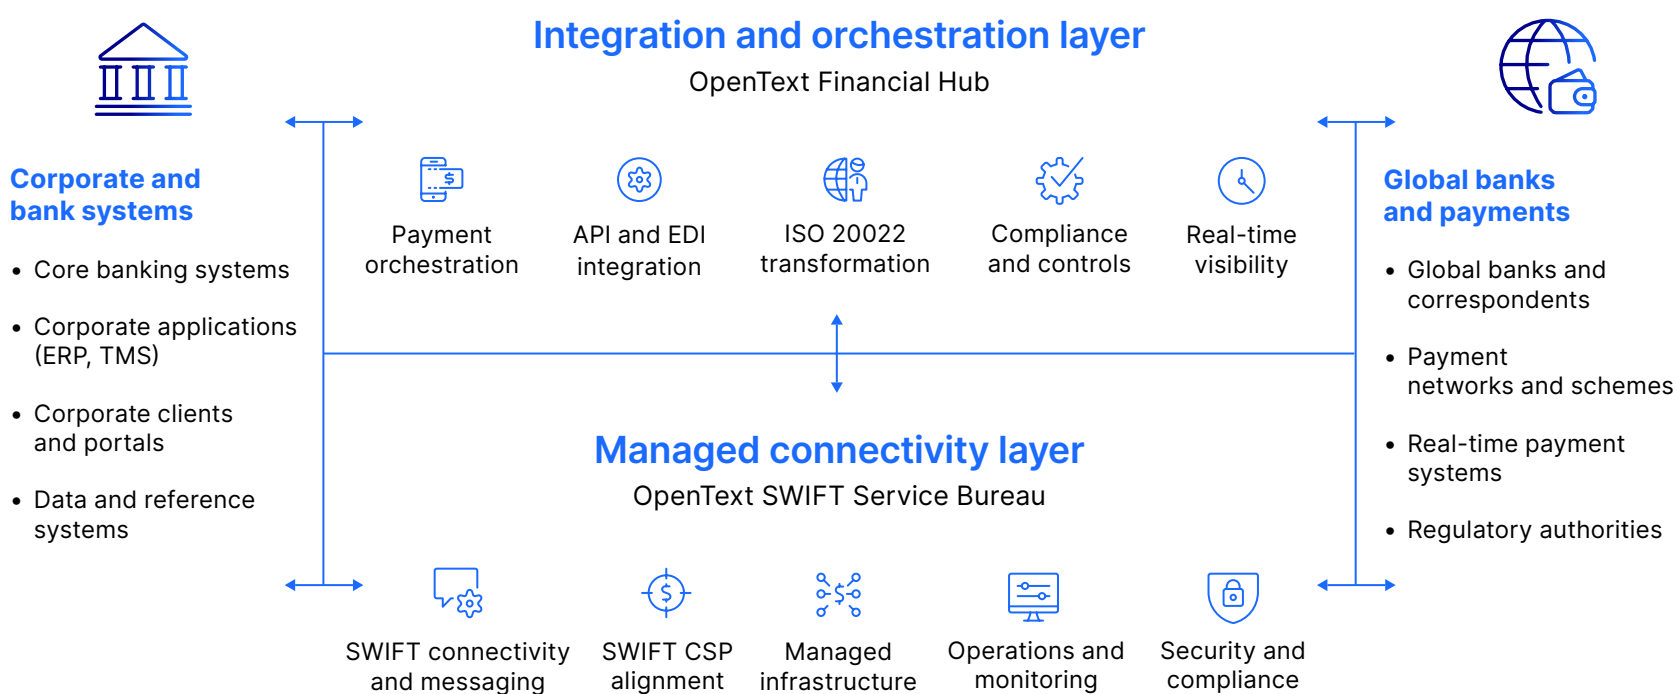

- ⚠ Legacy infrastructure slows innovation
- ⚠ Manual compliance screening creates risk
- ⚠ Fragmented onboarding delays revenue
- ⚠ ISO 20022 mandates increase pressure
- ⚠ Skilled technical resources are stretched thin

Modernize and simplify for better outcomes

- 🔄 Faster corporate onboarding
- 🔄 Improved payment transparency
- 🔄 Reduced operational complexity
- 🔄 Real-time fraud and sanctions monitoring
- 🔄 Lower infrastructure and maintenance costs

One integrated foundation for today and tomorrow's banking operations

Modernize payments once for real-time banking, ISO 20022, and global connectivity.

A modern, cloud-based payments hub

Financial Hub orchestrates and transforms payment and integration workflows. SWIFT Service Bureau securely connects those workflows to the global banking ecosystem. Together, they create a modern, cloud-based payments hub that reduces fragmentation and operational burden.

OpenText Financial Hub

A cloud-first integration and orchestration platform that connects banking systems, payment workflows, APIs, EDI, and corporate clients into one scalable financial ecosystem.

Supports

- ✓ Corporate-to-bank integration
- ✓ Payment orchestration
- ✓ API and EDI onboarding
- ✓ Real-time visibility
- ✓ ISO 20022 transformation
