

OpenText eDiscovery Aviator Managed Review Package

Jumpstart your journey to GenAI powered eDiscovery the right way

Overview

Document review typically comprises 75 percent or more of total discovery costs. With an AI-first approach, the OpenText Managed Document Review team delivers the same high-quality document review services with even greater speed and efficiency—and we pass those savings on to you with an additional discount. Leveraging OpenText™ eDiscovery Aviator™ Review, the OpenText Managed Document Review team can help you achieve budget certainty, and even greater cost savings and risk mitigation for document review projects.

GenAI Managed Document Review Package

Document review of large quantities of ESI is typically the most stressful, time-intensive, and expensive part of the eDiscovery process. Knowing that you have access to a partner with a team of trusted experts who are adept at using advanced technology—including the latest in GenAI review—to speed the process of uncovering, reviewing, and producing documents quickly and accurately can significantly alleviate the challenges of large-scale document review.

GenAI-fueled managed document review offers all the advantages of a fixed-fee OpenText Managed Document Review –including budget predictability and risk mitigation yielding measurably higher accuracy, speed and cost-savings fueled by OpenText eDiscovery Aviator Review GenAI technology.

With more than a decade of leadership in the technology-assisted review space, OpenText is more than just a technology provider. Our deep bench of eDiscovery and investigation project managers, expert review teams, and GenAI prompt and workflow experts are uniquely positioned to maximize the value of OpenText’s proprietary and advanced AI technology, including the latest OpenText eDiscovery Aviator Review GenAI workflows for faster insights and rapid, accurate document review and production for your next project.

OpenText vision

	Exceed the quality of human review 90+% recall with optimized prompts and workflows
	At a lower cost 75% less expensive than manual review
	Immediately 88% faster

Business outcomes

With this package, you will realize the very real, tangible benefits of Gen AI powered document review. Our tenured AI experts have a long history of increasing the efficiency and consistency of labor-intensive traditional document review using OpenText proprietary technology-assisted review, advanced textual and conceptual analytics, and proven QC workflows. Now with the added functionality of OpenText eDiscovery Aviator Review, the OpenText Managed Document Review team delivers even greater speed, efficiency, and cost savings. The result? You get the same high-quality, efficient managed document review for **10 to 20 percent less**.

Your flight plan

This package is a fast, effective engagement that is designed to optimize the success of the project to realize the functionality of the system as quickly as possible and to ensure high performance.
