

OpenText SAP Solutions

Improve every business process with AI-driven SAP solutions and accelerate your RISE with SAP and GROW with SAP cloud modernization journey

Benefits

- Archive smarter, migrate faster, and cut costs
- Save millions on invoice and finance processing
- Reinvent HR for the employee experience era
- Boost collaboration and accelerate innovation

Every ERP process depends on information. But critical data is buried in silos, decreasing productivity and revenue. [Fifty-eight percent](#) of organizations have lost business due to poor data access.¹ Daily finance, HR, and customer experience processes that often run in SAP applications are disrupted at a high cost. It's time to fix it.

OpenText delivers integrated [SAP solutions](#) to drive smarter, faster business processes—wherever you are on your RISE with SAP or GROW with SAP modernization journey. From data archiving and cloud migration to finance and HR automation, and integrated GenAI, OpenText helps you unlock the full potential of your SAP Cloud ERP digital transformation.

¹ Foundry Research, sponsored by OpenText, *Marketpulse Survey: Digital Friction*, September 2024

“With OpenText Core Archive for SAP, we’re also equipped with a complete view of our data usage, which translates to predictable costs and makes forward planning easier.”

Werner Carstens
SAP Architect, Capitec

Reduce SAP RISE cloud migration risks and costs

Begin your RISE with SAP cloud journey with secure SAP [data archiving and document access](#). Organizations speed and simplify the move of SAP® S/4HANA® legacy data to the cloud. [Enercon](#), wind turbine manufacturer, migrated 9TB of SAP S/4HANA data with no downtime and saved \$23,000 in data center power costs.

Slash infrastructure costs by decommissioning legacy systems and reducing your database footprint. Like for [Capitec Bank](#), intelligent archiving also provides a full view of memory usage that translates to predictable costs and savings. Finally, business users access archived content instantly, securely, and in context—anytime, anywhere.

351% 3-year ROI in finance and document management efficiency

Manual document-intensive invoice, order-to-cash, and procure-to-pay finance processes impact your bottom line. OpenText™ [intelligent capture, document management](#), and [vendor invoice management](#) SAP solutions digitize paper, automate processes, and secure and govern information across its lifecycle. According to [IDC Business Value of OpenText SAP ECM report](#), organizations saved \$5.36M yearly in invoicing and AP processes and 351% ROI over three years in IT and finance efficiency.²

Simplify HR processes and create engaging employee experiences

Manual HR processes frustrate employees, slow recruitment, and risk non-compliance. From hire-to-terminate, OpenText [employee document management solutions for SAP® SuccessFactors®](#) unify and digitize employee and recruitment documents, automate HR processes, and ensure data privacy. These solutions create engaging and seamless, self-service HR experiences.

Tighten collaboration and accelerate GROW with SAP transformation

Dispersed content hampers collaboration. OpenText offers easy-to-deploy and secure [SaaS cloud content management](#) that seamlessly integrates with SAP S/4HANA, Microsoft 365, Salesforce, and Google Workspace—improving collaboration, productivity and compliance. Low cost and fast time-to-market is ideal for mid-market and enterprise departments embracing GROW with SAP. [ScottsMiracle-Gro](#) implemented a complete SaaS document management, archiving and capture solution to drive its rapid roll-out, streamline operations, integrate with SAP S/4HANA and save \$500,000 eliminating legacy license fees.

Build loyalty at every customer touchpoint

Customers expect fast, personal service at every touchpoint, including web, email, and print customer communications from invoices and notices to shipping documents. With volumes and dispersed teams creating, organizations struggle to control what goes out. AI-driven personalized, real-time [SAP outbound communications](#) boost customer satisfaction, while ensuring consistent brand and compliance, enterprise-wide.

Pump up SAP ERP with AI

AI offers greater speed and accuracy—but it's only as good as the data and information it uses. Expand the value of SAP solutions with AI content management. Use an [AI content assistant](#) to boost efficiency and productivity through conversational search, content discovery, summarization, and translation. Future AI integration with archiving and SAP Joule will provide even greater insights, automation and collaboration.

Why OpenText and SAP

OpenText is SAP's largest global solution extension partner and long-time [SAP Pinnacle Award winner](#). OpenText's integrated SAP solutions deliver content in the context of the SAP workflows, when and where it's needed. Improve compliance, accelerate processes, elevate decision-making, and modernize with RISE with SAP and GROW with SAP, with the most trusted SAP-integrated solutions.

Solutions for each phase of your RISE with SAP and GROW with SAP journey

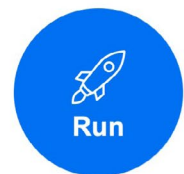

Prepare
